

Symposium on

**ADDITIVE MANUFACTURING AND
INNOVATIVE TECHNOLOGIES 2017**

**Exhibiting and
Advertising Opportunities**

Add+it 2017

... the essential symposium for the Additive Manufacturing community

Evidently additive manufacturing is of high interest to the scientific and industrial community: more than 120 participants from 10 nations took part in the [Add+it in 2016](#).

Now in 2017 the [Add+it Symposium](#) is going into its next iteration. From **September 28 – 29, 2017** around 150 internationally recognized experts from industry and academics in the field of Additive Manufacturing (AM) will gather at the [Museum Arbeitswelt](#) in **Steyr (AT)** to present and discuss the current state of research, highlights of their technology and trends in the market.

The [Add+it 2017](#) is part of the festival NATURE OF INNOVATION. This festival includes several events, public labs such as the Mini Maker Fair. This is an additional advantage of Add+it 2017 since it means more communication, a greater audience and broader advertising coverage.

The topics that will be covered at the Add+it:

- Focus on Additive Manufacturing with Polymers
- AM for medical applications
- Material Development
- Integrated Electronics
- Micro/Nano 3D-Printing
- Training and Education for AM, “Qualifizierungsnetzwerk – Polygenferos“
- Logistics
- and much more...

The symposium content will be*:

- 10 keynote talks from internationally recognized speakers
- Parallel sessions focusing in detail on individual topics
- Competition for higher technical schools (HTL)
- Extensive networking opportunities
- Industrial exhibition
- Exclusive symposium dinner

**The detailed program will be available at [the conference website](#) soon.*

The Add+it is a **great opportunity for advertisement** in the field of Additive Manufacturing due to

- Advertisement before the event: we will reach several hundred interested companies and contact directly the opinion leaders.
- Coverage by the media before and after the event (e.g. [X-technik Magazine](#), [3druck.com](#), ...)
- Advertisement directly at the Add+it location: Flyers, Roll-ups and exhibition, ...
- Additional Advertisement throughout the Festival NATURE of INNOVATION with more than 15 000 contacts.

An important part of the Add+it is the **small but powerful industrial exhibition**, where companies covering the entire value chain for 3D printing (designers, material and equipment suppliers, service providers, initiatives, ...) will showcase their latest developments and products. The exhibition, which is situated next to the coffee and lunch breaks, will stimulate the dialogue between R&D and industrial participants.

Add+it 2017 EXHIBITING AND ADVERTISING OPPORTUNITIES

Bronze-Partner – Investment of € 1.000,- (excl. VAT)

- Acknowledgement/logo on the Add+it website.
- Acknowledgement in the Add+it conference flyer (PDF-file).
- Acknowledgment at the Add+it conference opening and closing presentations.
- **Including 1 participant fee for employees and 1 ticket for customers for the whole symposium**

Silber-Partner – Investment of € 3.000,- (excl. VAT)

- All benefits of Bronze Partnership as listed above.
- Including exhibition at the Add+it conference: One exhibition booth (size ~6 m²), allowing your organisation to showcase its products and services.
- One flyer supplied by you distributed to the Add+it conference participants.
- **Including 2 participant fees for employees and 2 tickets for customers for the whole symposium**
- **OPTION: reduced fee for further costumers**

Gold-Partner – Investment of € 5.000,- (excl. VAT)

- All benefits of Silver Partnership as listed above.
- Exhibition at the Add+it conference: Larger exhibition booth (size ~12 m²), allowing your organisation to showcase its printers and machines.
- Sponsor roll-up at the Add+it conference floor.
- **Including 2 participant fees for employees and 8 tickets for customers for the whole symposium**
- **OPTION: reduced fee for further costumers**
- Acknowledgement as Gold-Partner.

With this signed form I commit to contribute to the Add+it 2017 Symposium by ordering the following partnership option:

- Add+it Bronze-Partnership – Investment of € 1.000,- + VAT**
- Add+it Silver-Partnership with Exhibition – Investment of € 3.000,- + VAT**
- Add+it Gold-Partnership with Exhibition– Investment of € 5.000,- + VAT**

Voices 2016

“I attended Add+It 2016 conference in Steyr as I did one year before the first Add+It 2015 in Linz. I find the conferences were both times widening my horizon of what can be done using additive manufacturing. Applications, challenges, materials, surfaces, theoretical and analytical aspects are presented in various fields. There is also time to discuss and get personal contacts in a very nice surrounding, enlightened by extraordinary good weather. I will try to take part in Add+It again next year!”

Dr. Andreas KURTZE, Senior Scientist, Swarovski KG

“Add-it was an excellent opportunity to update myself on digital 3D printing. My expectations were not only met but by far exceeded and I made very valuable contacts with follow up meetings already arranged. I was especially surprised how much contact points to sport and fashion industry appeared. I wish every conference could be of such value!

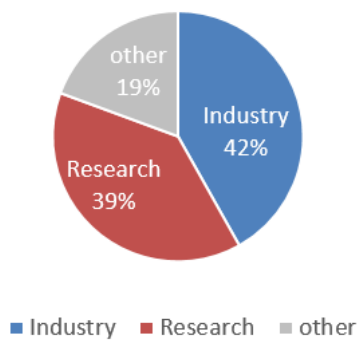

Thomas SCHMIDT, Huafeng, Director of Innovation and RSL

„The Add+It 2016 was a perfect organized event in an amazing locality. Especially the good mix of professionals from science and from economy, combined with AM interested persons. This variegated mix led to a lot of stimulating and interesting discussions.”

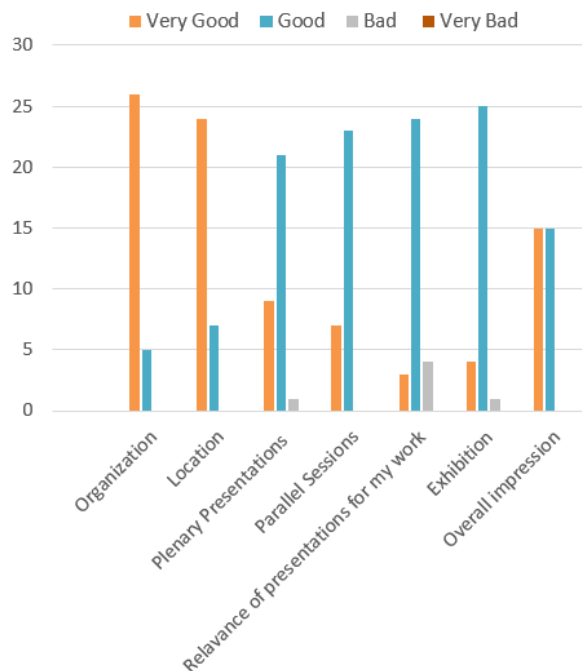

David Sarnowski, FIT AG
